ABOUT NATIONAL FORENSIC SCIENCES UNIVERSITY

The National Forensic Sciences University is the world's first and only University dedicated to Forensic, Behavioral, Cybersecurity, Digital Forensics, and allied Sciences. It was established by the Government of India through Act, 2020 (32 of 2020) with the objective of fulfilling the acute shortage against the increasing demand for forensic experts in the country and around the world. National Forensic Sciences University, the erstwhile Gujarat Forensic Sciences University is the brain child of Govt of Gujarat. It was established by the Hon'ble Prime Minister of India Shri. Narendra Modiji, then Chief Minister of Gujarat in 2009 with a sole objective of creating professional experts in the field of Forensic sciences. Since its inception, the university has been scaling new heights with its extraordinary and exemplary performances in the field of academic forensics sciences. Based on impressive success achieved by the university within a short span of eleven years, the Government of India has recognized its services to the student communities and the professionals of the national and international origin, and has accorded the status of Institution of National Importance and the also as a central university in October 2020.

Vision

- To fulfill the acute shortage of forensic experts in the country and the world.
- To make the world a better and safer place to live.
- To carry out research in the area of Forensic Science, Crime Investigation, Security, Behavioral Science and Criminology.

Mission

- Education through Investigation
- To impart High-Quality Education of International Standards
- To carry out research in the area of Forensic Science, Crime Investigation, Security, Behavioral Science and Criminology

"Knowledge through Investigation, the path towards scientific advancement"

VISION OF TFC

We would like to thank National Forensic Science University for supporting and guiding us for the event with their experience and expertise, we are grateful to learn under such great experts. The Forensic Corner is a Website and YouTube channel initiative that aims at promoting Forensic Science, and other areas of Science at the largest scale possible. This website is maintained by the students of National Forensic Science University, Ministry of Home Affairs Gujarat, India. Our aim is to spread knowledge and build a network of experts worldwide so as to set a foundation of knowledge among all types of individuals in the society. We believe in research and development and support the domain of advancement.

- Prashant Singh

Head of Event

"We believe a mission is incomplete without a team, the pillars of The Forensic Corner are a real heads-up to the vision due to their optimism and the ability to stand out of the crowd to accomplish the so-called impossible."

Event Team

"At first it isn't easy, but with the passage of time and consistency we learn and also give back to the society"

Nandini Gupta
(Event Manager)

Ashika Goel
(Event Host)

Manisha Arunkumar
(Video and Design Head)

"When you have a vision to seek, it becomes your ability to bring a change, productivity never stops, we will surely bring out the best versions to the society for exchange of knowledge"

Shankar Pawar
(Technical Head)

Vidushi Saraswat
(Event- Coordinator)

Apoorva Narad
(Event- Coordinator)

Shamik Bhatt
(Marketing and Publicity Head)

"We stand strong with The Forensic Corner's vision and our goal is to enhance the Scientific Discipline among the audience and bring out the best version of the scientific knowledge to the society"

ABOUT THE EVENT

“Quality knowledge should be available to all, therefore the International Forensic Science e-Conference is **going to be free of cost** for anyone in the world to attend and participate ”

For the 1st time ever **The Forensic Corner** is hosting a **2-Day International Forensic Science e-Conference** for empowering forensics in the society on 10th and 11th of July 2021. This event will give students as well as experts a domain to share valuable ideas. This event is supported by various forensic organizations that are working worldwide to bring a change in investigation, research and development and also in the educational domain. The event will be held virtually via Zoom platform and streamed directly on YouTube.

The event is supported and mentored by **National Forensic Science University** who have given their expert guidance and helping the students to organize this event under their support. Our experts for the event are from, Bio Forensics Research Center, Italy, The American Investigative Society of cold cases, Gulf Coast Fire (LA), Maastricht University, Forensic News Journal Magazine (Philadelphia), European Society of Forensic Science and our media partners like Pink Biology (UK) and Indian Forensic Students Council (India). Together with their support, we aim to uplift the “Science of Common” i.e. Forensic Science.

The Event

On 10th July, Saturday (Session 1, 12 Pm- 2 Pm, IST- Indian Standard Time)

- Welcome remarks and event inauguration by **honorable Vice-Chancellor of National Forensic Sciences University, Dr. J.M. Vyas**. Followed by a speech that will be delivered **Campus Director (Gandhinagar) Prof. (Dr.) S.O. Junare**.
- The event will then proceed with **expert talks** from National Forensic Sciences University experienced faculties beginning with respected, Dr. Rakhi Agarwal, Dr. Bhargav Patel and Dr. G. Rajesh Babu.

(Session 2, 4 Pm – 6 Pm, IST- Indian Standard Time)

- Session 2 will commence with **guest lectures** are limited to ensure the best quality content, The event will consist of Guest Lectures that will be delivered by Dr. Eugenio D’orio, Dr. Emilio Nuzzolese, Mr. Cloyd Steiger, Dr. Michael Freeman, Mr. Robert Schaal

(Session 3, by 7:00 Pm, IST- Indian Standard Time)

- There will be a 20 minutes **quiz competition** for all the participants who have registered for the event which will be shared via mail before 7:00 Pm.

On 11th July, Sunday (Session 4 & 5, 6 Pm – 8 Pm, IST – Indian Standard Time)

- Then finally the most phenomenal event will be the **Oral Presentation**, where the participants will have to present their work, idea, etc., to the Scientific Panel and on the basis of the set guidelines the participants will be evaluated.
- Finally at the **closing ceremony**, the **winners** will be **announced**. A surprise to the audience from The Forensic Corner will be reveled at the end of the Ceremony.

Prizes under each Category

- The participants who will secure a Top 5 position in the Quiz will get a chance to publish an article in the Forensic News Journal Magazine special issue free of cost.
- The top 5 oral presentation winners will get a Certificate of Excellence. They will also get a chance to get their full paper published in the Journal of European Society for Forensic Science free of cost. The remaining presenters will get a certificate of participation.
- Those who attend the session after registration, will get a Certificate of Participation, and they can also take part in the quiz competition session.
- Those who wish to just attend the session, can do so via our YouTube channel as the event will be streamed live. They will be not able to take any participations in the quiz and will not get any certificates.

INSTRUCTIONS FOR THE EVENT

"Quality is the key to success, hence its important to make sure that all participants share their correct information and maintain the scientific ethics"

Instructions for the Participants

The Entry to event is limited & open to attend for Forensics & Law Students, Lawyers, Forensic Experts, Doctors, Academicians, Research Scholars, Judicial officers, Members of organizations working in field of forensic, Detective agencies, students from pure sciences who are interested in learning more about forensic science and those who wish to know more about forensic science can attend the event.

- Those who wish to participate in the live quiz, the link will be shared with the registered participants during the end of the guest lecture, to their respective e-mail. This event will be graced by your presence.
- For taking part in the oral presentation, the participants will be required to submit their abstracts in the abstract submission link given at page 3 for evaluation. Abstracts will be reviewed by the Scientific Panel before they are accepted. **Such participant's registration will only be confirmed after their abstract is selected.** The following information, in the given format, should be send along with the Abstract:
 - Name of the Participant
 - Official Designation/Institution Details
 - Address and Email id
 - Mobile number
 - Title of Abstract
 - The selected abstract will be notified via email/phone call for registration procedure.
- Abstract should contain minimum 300-500 words, 4-5 keywords, and should include minimum 3 intext citation or more with the full references mentioned below the abstract in APA format. **(Note- guidelines should be followed strictly to avoid rejection)**
- **Submissions** are accepted in any domain of **FORENSIC SCIENCE** and its **related Disciplines ONLY**. Last date for abstract submission is **3rd July' 2021, 12 PM IST**.
- Accepted abstracts will be notified via e-mail/phone for further instructions for the oral presentations and registration procedure.
- Incase if you are unable to submit the abstract via link provided, you can mail it to us at theforensiccorner@gmail.com with the subject as "Abstract Submission for IFSC21-TFC"

Registration details for the Event

Registration Category

- As an Attendee

Link- <https://forms.gle/CRgR6EuPnEws1QsVA> (Last date for registration is till 5th July, 2021)

- For Abstract Submission

Link - <https://forms.gle/s4d6WVPEGvSGYrLHA>

- As a Oral Presenter

(Confirmation mail will be shared with the accepted abstracts participants only)

(Further instructions will be mentioned within the mail)

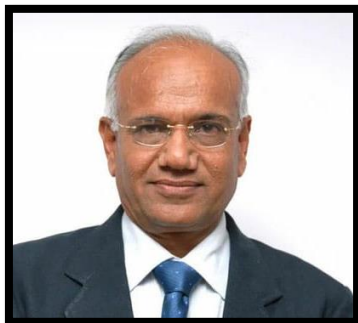

Please note - Fill in the correct details and follow the guidelines strictly, as errors will not be considered

THE CONFERENCE SPEAKERS

"There is no science without the essence of Scientific Temperament"

July 10, 2021 (Session 1)

Inauguration and Welcome speech of the event
from 12 pm - 12:30 Pm (IST) by

Dr. J. M. Vyas

Prof. (Dr.) S.O. Junare

National Speakers for the event from
12:30 Pm - 2 Pm (IST) by

Dr. Rakhi Agarwal

Dr. Bhargav Patel

Dr. G. Rajesh Babu

Talk Title

Amalgam of Forensic and
Clinical Toxicology: Need of
the hour

Talk Title

A Novel Approach for
processing of Bidi as a touch
DNA evidence

Talk Title

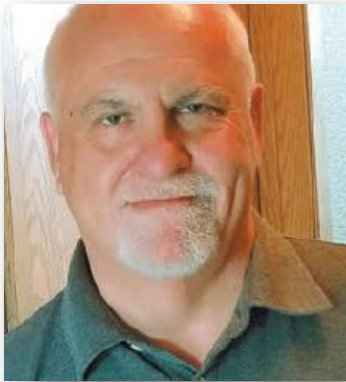

Non-destructive methods and
non-invasive procedures in
Contemporary Scientific
Investigations of Crimes

THE CONFERENCE SPEAKERS

"Live for scientific advancement, create the impossible"

July 10, 2021 (Session 2)

International Speakers for the event
from 4 Pm - 6 Pm (IST) by

Mr. Cloyd Steiger

Talk Title

*Cold Case Murder Investigation and
the American Investigative Society of
Cold Cases*

Mr. Robert Schaal

Talk Title

*The Role of a Forensic Fire
Investigator*

Dr. Michael Freeman

Talk Title

*Forensic Epidemiology: the use of
population based data in
investigation of injury and death*

Dr. Emilio NUZZOLESE

Talk Title

*Forensic Odontology: Goals and
Trends in Identification*

Dr. Eugenio D' Orio

Talk Title

*New Challenges and
Developments in Biological
Evidence Detection*

OTHER CONFERENCE ACTIVITIES

"Supporting each other to grow and helping the needy, is the path towards Humanity"

July 10, 2021

Quiz Competition (Session 3)

Link will be shared via mail of registered attendees and participants by 7 Pm (IST)

Quiz Rules

- Single Login/Attempt will be considered valid only
- 20 Minutes, 30 Questions
- Via Socrative/Google Forms
- Winners will be announced in last of the conference

July 11, 2021

Oral Presentation (Session 4 & 5)

Link to join live session will be shared via mail of finalized and registered participants only

Timings: 6 PM – 8 Pm (IST)

- 8 Minutes Presentation
- 2 Minutes Viva from the Scientific Panel
- Max Slides 10

Concluding Remarks and
Winners announcement
for Quiz (after 8 Pm IST)

Note: Oral Presentations are limited, Only selected abstracts will be allowed to participate and winners will be announced next day

CHIEF GUEST

"The best guidance you can get is by learning from person more experienced than you."

Dr. J. M. Vyas
Vice-Chancellor, National Forensic Sciences University, India

"Higher education is that which does not merely give us information but also makes our life harmonious."

This university has come a long way to become the Central University known as the National Forensic Sciences University with a tag of Institution of National Importance. As an assertion to the phrase; there is no substitute for hard work, the university has made stringent efforts to become a globally acclaimed institution in this highly specialized area. It is in turn to integrate a number of centers across the country. Government of India has annexed a center at New Delhi, as another campus of the National Forensic Sciences University which is the erstwhile National Institute of Criminology and Forensic Sciences. Many centers are to be integrated in various parts of the country and also across the globe. Without any sorts of precedence for such a specialized university, this institution has made spectacular achievements within a short span of eleven years. The relentless efforts of this institution have been enthusiastically well recognized and positively acknowledged by the Government of Gujarat and also by the Government of India. The courses those are being offered in this institution are also of tailored made/ customized courses according to the trends prevailing in the country and the society. The practical exposure with hands on provided to the students is also of high quality and advanced. The association with the directorate of forensic sciences has yielded much value to the practical exposures for the student communities. Cutting edge research has always been an area of high impetus. Prospective researchers are emphatically motivated to come out with the solutions to the current issues faced by the society and also by the global humanity. This sort of research is not only confined to the core areas of forensic sciences but also in the broader disciplines of behavioral sciences, security studies, defense related areas.

We, at the NFSU, continuously aspire to be a breeding ground for positive ideas and emerge as a symbol of openness of thoughts, cultural pluralism and celebrating the unity in the diversity of India. We endeavor to touch the lives of every student by inculcating prudence, efficiency, creativity and compassion to work for the betterment of the marginalized / needy sections of the society. We attempt to kindle their sense of responsibility, honesty, conscience, justice and above all commitment to human values. We intend to pursue a multi-stakeholder consultation approach, in which students, teachers and staff, as well as alumni and other stakeholders, including the media, play a meaningful role. We pay our respect to those who had been associated with the University and seek to meet their expectations to take the University to greater heights. It is an earnest appeal to everyone to join us in fostering a healthy, peaceful and enthralling atmosphere at the University campuses, and affiliating institutions. We invite you to get yourself enriched with outstanding knowledge and are a part of the intellectual resources / forensic science think tanks of the country for serving the nation in a more authentic manner.

GUESTS OF HONOUR

“Hard work and determination with pinch of patience
is all you need”

Prof. (Dr.) S.O. Junare
Director, Gandhinagar Campus, NFSU

“The best education is the one that helps us to serve the society.”

Professor Dr. S. O. Junare is forensic accountant and behavioral economist, combining insights from fraudology, economics and psychology to improve decision-making in organizations and society, often with a gender or cross-cultural perspective. He is shouldering responsibilities as Campus Director at National Forensic Sciences University Gandhinagar and is responsible for all aspects of the University’s teaching mission and works on a broad range of academic and faculty issues, including academic planning, curriculum, Strengthening Learning and Teaching Excellence (SLATE), and educational technology. He previously served as Dean-Faculty of Management, Dean-Faculty of Forensic Science and Dean-Faculty of Doctoral Studies.

In addition, he served as member of Board of Governors, Academic Council, Finance Committee, Board of Studies and providing a comprehensive policy inputs to strengthen the academic and research activities at the University. His teaching focuses on Forensic Accounting, Micro Finance and Business Laws and Criminal Laws. Dean Dr Junare has diversified combination of education and talent and he earned Bachelor degrees in Commerce, Literature, Education and Law. He also possesses Master degrees in Management, Commerce and Philosophy and Doctoral Degree in Commerce and Management. His most recent research examines role of forensic science in prevention of economic crimes design to co-relate application of forensic science in fraud investigation and prevention. Professor Junare is a Dean-School of Management Studies; Dean-School of Forensic Science and also a Dean-School of Doctoral Studies & Research.

He serves on the boards or advisory boards of Banks, Universities, Educational Institutes and the advisory board of NITI Ayog (Agriculture & Rural Development Branch) as well as numerous academic journals. His research interest areas are Forensic Accounting, Criminal Laws and Forensic Science.

NATIONAL SPEAKERS OF THE EVENT

"Learning is a never ending process, the progress may be slow,
but the success is everlasting."

Dr. Rakhi Agarwal

Talk Title

Amalgam of Forensic and Clinical Toxicology: Need of the hour

Dr. Rakhi Agarwal, Associate Professor, is serving at National Forensic Sciences University (Erstwhile Gujarat Forensic Sciences University) since university inception i.e. July 2009 joined as Assistant Professor. She is having more than 17 years professional experience including about 12 years academic experience. She has completed M.Sc. Forensic Science from the Agra University (2003) and awarded with Ph.D. in Toxicology jointly from the CSIR-Indian Institute of Toxicology Research, Lucknow and Jamia Hamdard, New Delhi in 2008. Dr. Agarwal has received many prestigious Awards, Honors and Fellowships. Dr. Agarwal has delivered talk in many national, international conferences and delivered invited talks in live Webinars globally. She has to her credit 27 publications in peer reviewed international/national journals, 01 patent and 02 Articles. The total citation of her research work is 612 with h-index 10 (<https://scholar.google.co.in/citations?hl=en&user=3fm9MfMAAAAJ>). In the span of 12 years academic career, her 03 Fellows have been awarded with PhD Degree and currently, 05 Research Fellows are working for the award of Ph.D. degree. Further, she has guided 82 Dissertation fellows from India and overseas countries and 14 are currently working. She is serving as Resource Person in FDP and DST-Inspire Programs and imparting training to Judges, Public Prosecutors, Police Officers and Forensic Experts across the Globe. Dr. Agarwal is actively involved in consultancy services for insurance sectors and pharmaceutical industries as expert. She is also associated with many public and private bodies as subject matter expert for setting up of question papers in the field of forensic science. She is a member of Academic Council, NFSU and also holds other administrative positions in various committees at NFSU. She has been working as reviewer for many journals of Elsevier etc. Dr. Agarwal is a Life member of various professional bodies in India and Full Member of Society of Toxicology (SOT), USA. She has served as Executive Member for Society of Toxicology, India from 2012-18. She has been selected as Associate Member- Toxicology, American Association of Forensic Science, USA in 2020.

NATIONAL SPEAKERS OF THE EVENT

"Learning is the Process to Grow"

Dr. Bhargav Patel

Talk Title

*A Novel Approach for processing of Bidi
as a touch DNA evidence*

Dr. Bhargav is a well-qualified and technically-proficient academician with more than ten years research and teaching experience having strong academic qualifications. He has expertise in molecular diagnostics and microbiology, lab and field research, data collection/analysis and project management. Substantial experience in sophisticated research techniques and technologies. He is an Assistant Professor (Senior Scale) in Forensic Biotechnology at National Forensic Sciences University, Gujarat, India. His research areas include Forensic Genetics (Human Identification) and Forensic Microbiology. He was also deputed as a resource person for three months (From 15 July - 15 October 2019) to develop the DNA Fingerprinting Unit of Rwanda Forensic Laboratory, Kigali, Rwanda. He has 11 research papers published along with 2 book chapters, followed by a Patent. He has guided 4 Ph.D. students and 68 M.Sc. Dissertations. He is also the member of Biotech Research Society of India (BRSI), Indian Science Congress (ISC) and Indian Society for Human Genetics (ISHG). He is currently working on two active research projects.

NATIONAL SPEAKERS OF THE EVENT

"Always be open to learning, you will
be surprised"

Dr. G. Rajesh Babu

Talk Title

Non-destructive methods and non-invasive
procedures in Contemporary Scientific Investigations
of Crimes

Dr. G. Rajesh is a well-experienced academician and researcher with more than twenty four years research and teaching experience with strong academic qualifications. He is the Associate Dean, School of Medico legal studies at National Forensic Sciences University, Gujarat, India. He has expertise in Anthropology, Advanced Fingerprints sciences, Terminal Ballistics and Material sciences. He have been training the officers of the Bangladesh, Nepal Police and forest officers of SAARC countries and officers of other countries deputed under the ITEC scheme on various techniques in criminal investigation and also in the areas of Ballistics, Fingerprints and crime scene analysis. He has about 40 research papers published, 7 book chapters and 8 articles in popular magazines and media. He has guided 6 Ph.D. students and many M.Sc. Dissertations. He is also a Life member of Karnataka Medico, member of Legal Society South Indian Medico Legal Association, Indian Association of Forensic Medicine and Toxicology, Indian Association of Social Sciences and Health and Indian Academy of forensic medicine.

INTERNATIONAL SPEAKERS OF THE EVENT

"Education is everywhere, but the cost is your willingness to learn."

Dr. Emilio
NUZZOLESE

Talk Title : *Forensic Odontology: Goals and Trends in Identification*

Dr. Emilio is a Forensic Odontologist, Researcher, and Professor in Legal Medicine at University of Turin (Italy) and Head of Human Identification and Forensic Odontology Laboratory at the Medico-legal Institute of Turin. Expert witness in Civil and Penal Court for dental disputes and professional liability, Human Rights activist. Graduated in dentistry at the University of Bari, Italy, in 1994. Holds post-graduate certifications in Legal Medicine, Forensic Sciences and Forensic Odontology, and a Research Doctorate degree (Ph.D.) on Analytic Morphometry. In April 2021 he graduated in Science in Law (B.S.L.). Forensic Associative involvements: participating odontologist in the INTERPOL DVI Forensic Odontology Sub-Working Group, since 2010. President and Founder of the Civil Protection Association *Dental Team DVI Europe*. Co-founder and current President of the Association *Forensic Odontology for Human Rights* (www.afohr.org). Fellow of the Odontology Section of the American Academy of Forensic Sciences, since 2011. He presented over 100 papers in national and international forensic sciences meetings and journals and has been invited speaker in several congresses in Italy and abroad (Canada, China, Indonesia, India, Hungary, Nepal, Romania, Sudan, USA, UK), starting in 2006 as Invited Speaker at the forensic dentistry session of the FDI World Dental Congress in Shenzhen (Republic of China).

Where Questions Meet Answers

INTERNATIONAL SPEAKERS OF THE EVENT

"Do you have what it takes to become the
best version of yourself"

Mr. Robert
Schaal

Talk Title : *The Role of a Forensic Fire Investigator*

Robert J. Schaal is a Consultant and Forensic Investigator with Gulf Coast Fire Investigation, Research, and Education, LLC, based in Mandeville, LA. He retired from his position as Assistant Special Agent in Charge of the New Orleans Field Division of the Bureau of Alcohol, Tobacco, Firearms and Explosives in 2014, after serving ATF for 27 years. He began his career as a field agent assigned in New Orleans, Louisiana in 1987, and in 1995 he entered the ATF Certified Fire Investigator Program, which he completed in 1997. He served in a headquarters position overseeing the bureau's fire investigation training programs from 2001 - 2005 and subsequently returning to a supervisory position in the New Orleans Field Division. Throughout his career he has attended numerous fire investigation training and education seminars and has coordinated and instructed numerous training programs both inside of United States and Internationally. He is a life member of the Louisiana Chapter of the International Association of Arson Investigators previously serving on the Board of Directors and advancing to the position of Chapter President. He is a life member of the International Association of Arson investigators and served on the Board of Directors for 11 years, including service as President during 2009/2010. He continues to serve on the steering committee of the IAAI distance learning initiative CFITrainer.net and has serves as a program development advisor, contributor of support materials, and a presenter. He has authored a paper distributed on CFITrainer.net entitled "A Users Guide for the CFI Calculator and Fire Dynamics Equations." He holds a Bachelor of Science Degree in Criminal Justice from Auburn University, Auburn, Alabama.

Where Questions Meet Answers

INTERNATIONAL SPEAKERS OF THE EVENT

"Science is the future, knowledge its path"

Dr. Michael
Freeman

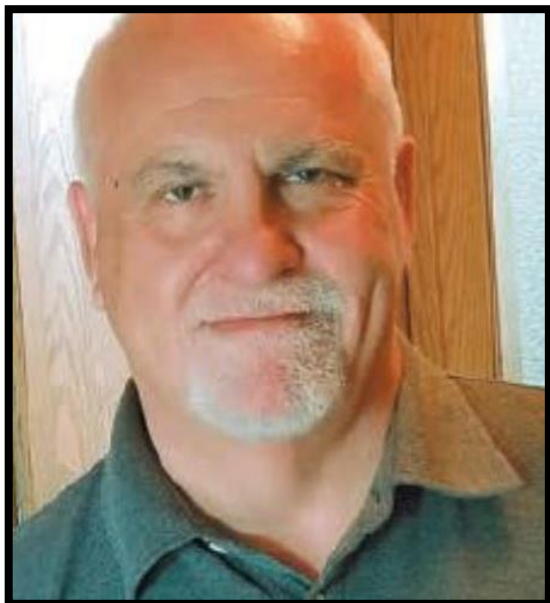

Talk Title : *Forensic Epidemiology: the use of population based data in investigation of injury and death*

Prof. Freeman is a tenured associate professor of forensic medicine and epidemiology at Maastricht University Medical Center and a joint clinical professor of psychiatry and public health and preventative medicine at Oregon Health & Science University School of Medicine. He is a member of the faculty of Forensic and Legal Medicine of the Royal College of Physicians (UK) and a fellow of the American College of Epidemiology. He is a fellow of the American College of Epidemiology and the American Academy of Forensic Sciences, and is a recent Fulbright Fellow with the U.S. Department of State, in the area of forensic medicine. Prof. Freeman has provided expert testimony more than 1,200 times in a wide variety of civil and criminal cases, including injury and death litigation, automotive and other product liability, toxic tort litigation, life expectancy, and medical negligence cases, as well as in homicide, assault, and other criminal matters. Dr. Freeman has published more than 200 scientific papers, books, and book chapters, primarily focusing on issues relating to forensic applications of epidemiology and general and specific causation. He has published research on the topics of traffic crash-related injury and death, injury biomechanics and injury causation, genocide, cancer epidemiology, chronic pain mechanisms, and adult autologous stem cell therapy, among others. Dr. Freeman is the co-editor and co-author of the authoritative text on forensic applications of epidemiology; *Forensic Epidemiology: Principles and Practice*, published in 2016. Dr. Freeman holds 6 university degrees, including a doctor of medicine degree from Umeå University in Sweden, and a Ph.D. and master's of public health (MPH) in epidemiology from Oregon State University, i.e. He has completed a 2-year fellowship in forensic pathology through Umeå University and the Allegheny County Office of the Medical Examiner, holds a diploma of legal medicine with the Royal College of Medicine in the United Kingdom.

Where Questions Meet Answers

INTERNATIONAL SPEAKERS OF THE EVENT

"Education is investigation of yourself and reporting the best version of you to the world"

Mr. Cloyd
Steiger

Talk Title : *Cold Case Murder Investigation and the American Investigative Society of Cold Cases*

Mr. Cloyd is a Former Chief Criminal Investigator at the Washington State Attorney General Homicide Investigation. Tracking System tracks and supports Homicide investigations in Washington State. He retired in 2016 from the Seattle Police Department, where he had worked since 1979. He was assigned as a Detective in 1990 and was a Homicide Detective from 1994 to 2016. Has investigated and/or assisted with investigating hundreds of homicides and officer-involved shootings during that time, including serial murders, mass murders, and acts of domestic terrorism resulting in death. Director of Investigations Consulting for the American Investigative Society of Cold Cases. (AISOCC), a national non-profit that reviews and recommends steps for investigators to take across the US in cold case murder investigations. Director of Investigations for the Midwest Cold Case Task Force, which assists in the investigation of Cold Case murders in the Midwest United States..

Where Questions Meet Answers

INTERNATIONAL SPEAKERS OF THE EVENT

"Research is the future of science sustainability"

Dr. Eugenio D' Orio

Talk Title : *New Challenges and Developments in Biological Evidence Detection*

Dr. Eugenio D'Orio, MSc forensic biologist, is the General Director of Bio Forensics Research Center, a private Italian institute that performs research in the field of forensic biology in partnership with the University of Naples and different international forensic organizations and universities. From 2016 He is a Consultant for the (Italian) Ministry of Justice about the forensic DNA evidence; from 2016 He is teacher in the specializing course "Diagnostic and forensic genetics" offered by University of Naples. He is a former research at the Copenhagen University and former Adjunctive Prof. of Forensic Biology at the University of Milan. He has more than 100 publications on several journals - Italian and international. He is consultant for the major Italian homicide case, such as "Strage di Erba", "Elena Ceste's homicide", etc.
